Programs of Study

JOHNS HOPKINS
SCHOOL of NURSING

Doctoral Programs

Doctor of Nursing Practice (DNP)

- DNP Executive Track
- DNP Executive/MBA Dual Degree
- DNP Executive/MPH Dual Degree
- DNP Advanced Practice Tracks

Doctor of Philosophy in Nursing (PhD)

DNP Advanced Practice/PhD (DNP AP/ PhD)

Post-Doctoral Fellowships also available

Doctor of Nursing Practice (DNP)

Prepares you for NP, CNS or CRNA certification while working toward a doctoral level degree

Nurse Practitioner

- Adult-Gerontological Primary Care*
- Adult-Gerontological Acute Care *
- Family Primary Care*
- Pediatric Primary Care*
- Dual Pediatric Primary/Acute Care*

Clinical Nurse Specialist

- Adult-Gerontological Health*
- Adult-Gerontological Critical Care*
- Pediatric Critical Care*

Nurse Anesthesiology

**Online*

DNP Advanced Practice

- Designed for the RN with either a BSN or MSN pre-licensure degree
- Immersions in Baltimore/DC Metro area offer inter-professional opportunities and resources
- Tracks are online with onsite immersions options

- More info: DNP Advanced Practice Admission Requirements

DNP Advanced Practice/PhD Dual Degree Program

Student Clinical Research Intervention Science Scholars

- Full time onsite 5 year program.
- Clinical practice and research are integrated to improve patient outcomes.
- Admitted students will receive 65% of tuition per the academic plan and stipend support for 3 years. Students may be able to receive other scholarships as well.
- One application that is reviewed by both the DNP and PhD Admissions Committees.

DNP Executive Tracks

Post-Master's DNP, DNP-MBA, DNP-MPH

- Post-Master's option, 2-year and 3-year executive style - online
- Clinical based practice focused program with online and virtual learning experiences
- Project focused curriculum
- Applicants who earned fewer than 552 clinical hours as part of their advanced nursing coursework should email jhuson@jhu.edu for information about the best pathway to your DNP
- Students may have an identified clinical site for conducting scholarly project at the time of matriculation or we can assist with project

Doctor of Philosophy in Nursing (PhD)

- Research degree for entry level and Advanced Practice Nurses
- **4-5 years**, includes coursework, research, and dissertation
- Funding for first three years includes
  - Tuition, Health Insurance, Stipend

Post-Doctoral Fellowships also available

DNP to PhD Bridge

- Transfer up to 9 credits from your DNP program to the PhD – complete the PhD in 3 years instead of 5.
- Take your DNP research to the next level with support from research funding.
- Enhance your qualifications for an advanced role in Academia.

*Applicants follow the process and requirements for the PhD program and then if admitted, the program director and coordinator will help the student through that credit transfer process and advising. It isn't a formal program, but a pathway for DNP prepared applicants to continue their doctoral research and earn their PhD! Since the PhD is an on-campus program, it's a great opportunity for local DNP prepared nurses.

Post-Degree Certificates

Nurse Practitioner

- Psychiatric Mental Health*
- Pediatric Acute Care*

Other

- Nurse Educator*
- Health Care Organizational Leadership*

**Online*
